Realm of Druids (The Guild War Book 1) Mark McCullough

The Great War of five-hundred years ago divided the known world. The empire which previously ruled the world shattered. Out of the ashes of that empire, sixteen different nations were formed by the Druids. The former capital of the empire lay in what was now Rudarch.

Of at least as great importance as the fall of the empire was the fact that the three orders of the Guild of Magic were openly involved. The Guild. One body, three parts, now separate forever. The Church of Clerics and the Druids fought against the Coven of Witches. In the end, all members of the Coven vanished, even those few that fought on the side of the Druids. It was not known what happened to them.

Alcourt, adept of the Druids, cursed to never age, now had to face his personal demons from that war. He had to confront a new threat that could reignite the war, bringing mages once again into battle with each other.
