Every year, some two million parents in the US suffer the death of a son or daughter. The unnatural sequence of the child's preceding the parent in death creates a wrenching loss and overwhelming emotional and spiritual disorientation. Most of these bereaved parents find relief from their isolation only in the company of others like themselves. *The Grieving Garden* offers support, understanding, and, ultimately, comfort and hope from those who have sowed the same tears over the death of a child.

*The Grieving Garden* is a ground-breaking book that invites bereaved parents into personal conversations with a diverse group of fathers and mothers who share the same loss. The text is free of distracting and heavy-handed editorializing, "expert" opinion, or unwanted advice. Instead, readers are welcomed into a community of common understanding--one they may enter at will, at their own pace, for reassurance and hope.
