Notations

John Experimental Music - Cage

Notations John Experimental Music - Cage

This book illustrates a collection of music manuscripts which was made to benefit the Foundation for Contemporary Performance Arts. The manuscripts are not arranged according to kinds of music, alphabetically by composer's name. The text is the result of a process employing the I-Ching chance operations by the editors -- John Cage & Alison Knowles. Not only the number of words & the author, but the typography, too. It's truly enlightening to see how many different ways that composers plot out their works & think about them. Of course, John Cage's career was all about music existing outside-the-box & this book demonstrates that goal beautifully. Composers represented include: Xenakis, Wolfe, Stockhausen, Stravinsky, Swift, Satie, Reich, Riley, Ono, Neuhaus, Leiberman, Ligeti, Ives, Glick, Crumb, Copland, Byrd, Cage, Brecht, Boulez, Bodin, Bernstein, Bedford, Babbitt, The Beatles, Andersen ... you get the idea. I found the collection to be truly "mind-blowing"! I can't imagine any kind of musician / composer who, wandering among the pages, who not want to have a copy.
