# Science and Human Transformation: Subtle Energies, Intentionality and Consciousness

*William A. Tiller Ph.D.*

**Science and Human Transformation: Subtle Energies, Intentionality and Consciousness** William A. Tiller Ph.D.

Overall this book is a paradigm-breaking book for science in that it reveals in some detail a viable larger perspective and framework for scientific description of nature and human evolution in that framework. It is also a conscious-raising book and a hope-raising book for humanity in that it shows people how to use their own intentionality to bring about...beneficial...changes...in their own bodies. Such changes naturally lead to significant growth in the individual's consciousness.
