The concept for this book came after a lively coaching session where I was literally peppered with questions for over an hour. When reflecting on the session afterwards, it dawned on me that most students ask the same or similar questions. They like to pick my brain and most are looking for detailed answers on certain strategies or topics, but it is the little tips and tricks that often provide the most “aha” moments.

These little nuggets take only 2 minutes to explain but can have a significant impact on your trading results. I’ve put together 37 of these nuggets that are innate to me after 10 years of trading but may not have crossed your mind.

This book should only take an hour or two to read, but I think you will find it well worth the time.

I hope you enjoy the book.
