Advance: Navigating From Where I Am to Where I'm Destined to Be Andrew Edwin Jenkins

The starting point for moving towards your dreams is first defining what those dreams are. For all of the talk about being held back, face it, most of us don't really know where we want to end up. Once we define the "what" we want to do, though, we also need to understand "how" to get there. If you know "how" you'll climb higher than someone who knows that where they want to go but doesn't know which steps to take. In addition, understanding "why" this dream matters is important. A "what" touches the head; a "how" addresses the work of your hands; but a "why" goes further... it hits the heart. Because of this, a "why" creates more momentum and drive- it ties into a passion and a feeling. We weren't made to dream- or live- alone, though. The "who" matters, too. In fact, it may matter more than the other areas. In reality, you can live the best case scenario with the wrong people and be miserable; but you can live the worst case scenario with the right people and be happy. That said, when the "what" and the "how" and the "why" and the "who" all align... the result is... well... magical. In this short work, we take steps to explore these key areas- and more. Advance will help you tap into the area(s) of your passion(s). You'll discover how your dreams weave together, in several areas of your life. You'll create a road map to get there, to advance forward in each area. And, you'll find that, in the end, the most important work you can do to step towards your dreams is the great work you do... on you.
