**Latin is one of the oldest languages in the world. It is also one of those languages that seems not to have evolved much even as different languages have continued to evolve; the meanings of words or the pronunciation of different words and phrases has remained unchanged for ages making it a perfect method of preserving critical information.**

For instance, every plant or animal has a scientific name, which is usually in Latin. Lawyers also seem to have their own Latin jargon. Although no one now speaks Latin as his or her native language, this doesn't in any way mean that the language is extinct. In fact, the Catholics have for a long time been learning Latin to help them interpret the bible better.

Even if Latin were to go extinct, do you know that the use of Latin is still in use in literally every facet of English conversations and general human life such that we use Latin without even knowing it. Do you know that you can learn it and speak it whenever and wherever you want? This book will teach you how to start speaking Latin without boring you with countless grammar rules. The truth is that you don't need to know all the grammar about a language to speak it! So if you are looking for a book that will fasten the learning process, this is a perfect book for you. I will teach you some basics of the language, common Latin words that you probably use without knowing that they are Latin and then some ways through which you can speak Latin when faced with different situations in your everyday life.

Think of this book as a secret companion to unleashing your Latin when you get a chance to.

## **This Book Covers Key Topics, Including....**

- Latin: The basics
- The Latin you already know and use everyday
- How to use Latin in day-to-day conversations
- Much, much more!
