## Grantville Gazette, Volume V (Ring of Fire - Gazette editions Book 5)

The most popular alternate history series of all continues. When an inexplicable cosmic disturbance hurls your town from twentieth century West Virginia back to seventeenth century Europe—and into the middle of the Thirty Years War—you'd better be adaptable to survive. And the natives of that time period, faced with American technology and politics, need to be equally adaptable. Here's a generous helping of more stories of Grantville, the American town lost in time, and its impact on the people and societies of a tumultuous age.

- Cardinal Richelieu, France's insidious master plotter and power behind the throne, learns of his prominent role in Dumas' not-yet-written novel *The Three Musketeers* (not to mention the several movie versions), and starts a search for the "real" D'Artagnan.
- Grantville is selling crystal radio sets so that Europeans can tune in to the Voice of America broadcasts, but the technicians from the future are at wit's end, trying to reproduce "primitive" early twentieth century broadcasting equipment by trial and error—until a trained library researcher shows up in town.
- Wilhelm Krieger, one of Germany's greatest philosophers, comes to Grantville to learn the philosophy of the future—and meets a contrarian cracker-barrel philosopher.
- The Dalai Lama of the seventeenth century receives a strange gift: an image of the Buddha which glows by a strange mystical force called "electricity."

And much more, including stories by the *New York Times* best-selling writers Eric Flint and Virginia DeMarce, in the latest installment of this best-selling alternate history series.

At the publisher's request, this title is sold without DRM (Digital Rights Management).

**Eric Flint** is the author of the *New York Times* best seller *1634: The Galileo Affair* (with Andrew Dennis)—a novel in his top-selling "Ring of Fire" alternate history series. His first novel for Baen, *Mother of Demons*, was picked by *Science Fiction Chronicle* as a best novel of the year. His *1632*, which launched the Ring of Fire series, won widespread critical praise, as from *Publishers Weekly*, which called him "an SF author of particular note, one who can entertain and edify in equal, and major measure." A longtime labor union activist with a master's degree in history, he currently resides in northwest Indiana with his wife Lucille.
