## **Gravity (Science Foundations) Phillip Manning**

Gravity dominates the universe. It holds the Earth, the Sun, and the Milky Way together, and it keeps our feet firmly planted on the surface of our planet. When an object goes up, it is pulled back to Earth by gravity. These facts make it easy to conclude that gravity is a strong force, but it is actually a very weak force whose confusing and contradictory nature has stumped many investigators. Gravity explains how two of the greatest scientific minds in history--Isaac Newton and Albert Einstein--finally unraveled most of the mystery surrounding this peculiar force, and how scientists today are continuing to search for answers to the remaining questions.

As a college student exactly feel bored to help reading. If their teacher expected them to go to the library or to make summary for some e-book, they are complained. Just minor students that has reading's heart and soul or real their hobby. They just do what the professor want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that reading is not important, boring as well as can't see colorful images on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Gravity (Science Foundations) can make you really feel more interested to read.
