Have you noticed things mysteriously move around? Keys don't stay put, wallets transport to different places, and socks go missing from the laundry. We observe reality shifts when things appear, disappear, transform or transport, and when we experience changes in time. Reality shifts range from the sublime (missing socks and synchronicity) to completely astonishing (the dead seen alive again; objects appearing out of thin air; spontaneous remission; traveling far in a very short time). Learn how to live lucidly to create a life you love, positively influence the future and the past, and transform sabotage into strength.
