Excerpt from The Justice of Rumania's Cause

The moral significance of Rumania's intervention in the great war has probably been understood less fully than any other important event which has taken place since August 1914. Even among Rumania's allies, welcome as Rumania's help was to them, and well disposed as they were to give her their help in return, there was lacking adequate knowledge of the vital issues for democracy and freedom at stake in Rumanian lands. Among countries then neutral there was probably even less understanding of the questions at issue. For instance, in one of the foremost papers of the Anglo-Saxon world we find the following passage: -

"In at least two minor respects they [the terms enunciated in the Allies' Note to President Wilson] are wholly immoral, in that they contemplate the seizure of territory that never belonged to Italy or Roumania in order to pay the bribes that these two eminently sordid Governments exacted as their price for entering the war."
