In Catastrophic Times: Resisting the Coming Barbarism (Critical Climate Change) Isabelle Stengers
This book is addressed to everyone who is struggling and experimenting today, to everyone who is a true contemporary of what Stengers dares to call "the intrusion of Gaia," this "nature" that has left behind its traditional role and now has the power to question us all. In Catastrophic Times is neither a book of prophecy nor a survival guide. Here, Stengers reminds us that it falls to us to experiment with the apparatuses that make us capable of surviving without sinking into barbarism, to create what nourishes trust where panicked impotence threatens.
