Video Warriors -- Second Edition (Video Warriors -- The series Book 1) David F. Norman

Military aircraft have long been able to perform maneuvers human pilots cannot tolerate. Remote-controlled, unmanned aircraft are one answer to keeping our enemies at bay and protecting those flying the missions.

VIDEO WARRIORS is the tale of how some of America's best and brightest young people formed Special Flight Operations Group One. As you follow their progress from video gamers to proud officers serving their country, you will wonder if this is fiction or prophecy. Is there already a cadre of young VIDEO WARRIORS in training?

Strong, decent characters, and a nasty villain or two, will make this a hard book to put down. Written for young adults, but suitable for all ages. Realistic heroes to inspire every reader, a reflection of our hope for the future.

This second edition has been re-edited and updated.
