## **Studying Engineering: A Road Map to a Rewarding Career (Third Edition)** Raymond B. Landis

Since Studying Engineering exploded onto the market in June, 1995, it has become the best selling "Introduction to Engineering" textbook of all time. Adopted by over 300 U.S. institutions, and reaching more than 80,000 students, the book has made major inroads into the "sink or swim" paradigm of engineering education. Armed with the book as a powerful tool for "student development," large numbers of engineering programs have implemented Introduction to Engineering courses to improve the academic performance and retention rates of their students. Now in the 3rd edition, the book is targeted to first-year engineering students at both universities and community colleges and is also accessible to motivated high school students.
