Wall Street, the center of global greed and financial power. How far would Wall Street go in search of profits? Wall Street connives. Wall Street corrupts. And now, Wall Street Kills! "Wall Street Kills," the explosive novel by Sheldon Filger, presents a devilish plot, in which Wall Street tycoons and financiers invest in producing the ultimate snuff movie. A snuff movie is an erotic film in which one of the performers is actually murdered in front of the camera. In Sheldon Filger's terrifying novel, a Wall Street tycoon with political ambitions faces financial ruin when his hedge fund company illegally uses client funds on investments that go horribly wrong. In desperation, he resorts to extreme measures to recoup his losses. The result is an elaborate plot, hatched by a secretive group of Wall Street investors, to kidnap a world famous, beautiful young female celebrity. Their objective: to have her tortured and killed before a live audience, in a choreographed theatrical spectacle which will be broadcast over the Internet in real-time, accessible to anyone with a computer and willingness to pay the viewing fee of one hundred dollars. The ultimate snuff movie performance is being planned, and the investors on Wall Street who have bought into the scheme will stop at nothing to make a killing.
